Gamer's Diapered Gamble Audio Script

by Champ (ChampTehOtter.com)

Description

Like to play games with your friends? The stakes suddenly got higher. Now when you lose a game you stand to lose a whole lot more as you wet and mess yourself uncontrollably! (Idea from Martin the Marten)

Intro

This file is intended for adults 18 or older, so if you are a minor, please stop the recording and go elsewhere.

Hello there. Welcome to another erotic hypno file by champ. If you are here with me, then you must want to be hypnotized. That means you are ready to spend some time in trance, listen to my words, and accept all that you hear.

I cannot guarantee that you will go into trance as you listen to this file, but even if you don't immediately go into trance, it's okay to pretend. Sometimes, as you are pretending to go into trance, your subconscious will follow suit and before you know it, you may find you have already entered a state of trance without even realizing it.

This file is intended for use with diapers, but you're welcome to listen and test the effects without one - provided you're ready to wet and mess your pants without control.

Before we begin, please make sure you are in a safe place, where you can relax and listen to my words uninterrupted. A reclining position is best where you cannot roll or fall over. Once you are situated, turn off any cell phones, lights, or anything else that may distract you as you listen to my words.

For best results, make sure that you drink plenty of fluids as you listen to my words and as you game, whenever you decide to do so.

If you need time to prepare yourself to listen to my words, please pause the tape and do so now. I'll be here when you return.

Are you ready to be hypnotized? Good. Very good.

Induction

And now I would like you to close your eyes and imagine. Imagine how it feels when you really have to go. Like really really have to go. So badly, that you can barely hold it. You know how that feels. I want you to focus on that feeling... the feeling of needing to pee or poo or even make stickies... You know how it feels.... The desperation to go... Barely, barely able to hold it in. That feeling of desperation when you really have to pee... that pressure on the bladder... the feeling as if pee is beginning to trickle out...

Or that feeling of... really having to poop. That intense feeling of knowing that only that you've only got seconds before it comes out, whether you want it to or not.

Or maybe even that feeling... just before... you cum... that brink of the orgasm.... Right before you make stickies... that moment that you know that you can't hold it any longer....

Yes, you can think of any of those kinds of sensations, or all of them. And maybe you can think of a time when that happened to you... I'd like you to imagine yourself in that scenario... recall that feeling of urgency. Of needing to let go... that feeling that you could lose control at any second... and ultimately... that feeling of losing control. Of letting go, whether you're ready to or not. There you go... Remember how that feels... and imagine... that the little resistance you have left... is being removed... bit by bit... like bricks from a wall... or bricks from a dam... until that resistance is so very weak... that it collapses.... And you fill your diapers.... That's right... remember that feeling well... because you're going to become quite familiar with losing control as you go deeper and deeper into trance... on the count of.... 0. Nice deep trance. Nice and relaxed. Ready to listen to my words... ready to believe all that you hear...[deep deep trance... nice and deep... nice and relaxed... nice deep trance...][Going down, down down... going into a nice deep trance... so relaxed... nice and relaxed]

[10... 9... 8... 7.... 6... 5... 4... 3... 2... 1...]

Nice deep trance. Very good.

Body

And here you are and you know what you're here don't you? Yes. You are here to listen to my words... listen and relax... listen and accept all that you hear... as you listen to my words. And as you listen to my words, you can allow yourself to relax... allow yourself to go into trance... to enter hypnosis. To accept some suggestions that… you might find very fun. A little challenge. A little bet with yourself or your friends if they're

aware. The suggestion that whenever you lose the game that you are playing, you lose control. Control of your bladder, or bowels, or maybe even your stickies.

When you play a game, like a video game, making a bet, a board game, or even a card game... whenever you play a game... you may find... that whenever you lose, you lose control…Control of your bladder or bowels or even your stickies.

And you may find yourself picking up the habit of drinking a lot of liquid as you game. Yes.. you feel so thirsty, so needy to fill yourself with drinks as you play your games... making sure you're hydrated. You're bladder's nice and full. Making sure to drink up. So make sure to drink up as you play. Very good.

And every time you lose a game, you can feel the urgency to go get a little stronger. You can feel yourself losing a little more control. Each time you fail, you lose more control. That's right, each time you fail you lose more control. And each and every time you lose, you lose more control... harder and harder to hold back and easier and easier to just.. Give up and let go... right into your diaper.

And chances are... you might just pee or poop or make stickies in your pants whenever you lose... Even the first time, it might happen. And that feeling could be so strong that you might lose control completely, even the first time that you lose. And that's the gamble. Whenever you lose, you might just lose control over your pee... or poop... or even your stickies. But even if you don't immediately pee or poop or make stickies in your pants, you're going to really feel that intensely strong urge to do so... Stronger and stronger each time you lose.

Whenever you lose, It becomes harder... harder to hold in your pee pee. Harder to hold in your poo poo. Harder to hold in your stickies. It becomes harder and harder to hold it in each and every time you lose. [I'm losing control... it's so hard to hold it... I'm losing control... impossible to hold it...][I'm going to make pee pee poo poo stickies in my pants. I can't hold it in any longer. Oh no, I lost and I'm going to make stickies and poo poos and pee pees. Oh, every time I lose I'm losing control.]

Even if you manage to hold it the first time you lose... that feeling of urgency, that feeling of having to go... having to go to the point that you lose control.... That feeling will only get stronger...stronger and stronger... more and more urgent... as you struggle to hold it all in... [I'm going to have an accident... there's no stopping it now... I'm going to make pee pee poo poo stickies in my diapers...]

Like bricks in a dam... every loss makes that dam weaker and weaker..... More and more of a struggle to even try to stop yourself from wetting and messing pants [from wetting and messing your big bulky diapers].

And you know that you don't... have to struggle... you could just give up at any moment and let go into your pants, or your diaper if you're being good, and wearing diapers like you should. That's what it's there for, after all... but that's completely up to you... until you lose, that is. And you will lose sooner or later. And you'll lose control... sooner or later. And prove to everyone that you really belong in diapers. And you do belong in diapers, don't you? Yes you do. [feels so good to lose control. Feels so good to let go. Feels so good to unload. Let go into your pants. Let go into your diapers. Feels so good to go.]

Every time you lose a game it's harder to hold it in... Every time... you lose a game.. It gets harder and harder to hold it in. and that feeling only gets stronger as time goes on... yes, that's right... It's getting harder and harder whenever you lose and the more time that passes after you lose... it becomes harder and harder to resist having an accident... and when you lose again that feeling is even stronger... you feel even less resistance, and it's even harder to hold in your pee pee and poo poo and stickies... Until eventually, inevitably, you will lose control...

Imagine what it will feel like... to lose control after losing a game... where will you be? Who will you be with? Imagine my words... coming back in your mind.... Reminding you that this is what happens... when you lose... reminding you that... you're going potty in your pants.... with no control...

And as you listen to my words... you can accept all you hear as true... because you are here, and because you have chosen to listen... and because you have chosen to listen, you know that you are very good... [very good] And you know that you are doing the right thing... and you know that you will have a lot of fun following my suggestions when you play your games.... So keep on listening, keep on playing games, and make sure you wear your diapers... like a good boy, or a good girl... like a good diaper butt, or a good little incontinent gamer... yes... [like a good loser]

End

But for now, it’s time for me to go... and allow you to rest, or go about your day. And if you would like to listen again, that's okay. You can return again and again and listen as many times as you like until the effects you seek are complete and permanent.

On the count of five, you will awaken from your nice relaxing trance feeling alert and refreshed. One…beginning to regain your normal awareness… Two… becoming more aware of your body, lying in a relaxed position… Three …becoming more aware of your breathing, and where you are…. Four… feeling so, so good as you finally come back on… Five. All the way back, refreshed, and alert remembering how good it felt to listen to my

words. I hope you enjoyed your time with me today. I know I did. And I hope you return to visit again soon. Goodbye now!
